Dear President Barnes:

College staff has brought to my attention that Cuyamaca College will be offering three new programs. The information provided by the College indicates these programs do not contain new courses or substantial changes, but instead reformat the existing curriculum.

The new programs are:

- Biology: Associate of Science Transfer

- Public Health: Associate of Science Transfer

Based on the description Cuyamaca College has provided, these programs are not substantively new and will not necessitate a substantive change review by the Commission. Thank you for bringing this to our attention and please let us know if there are any changes in the information provided by the College.

Sincerely,
