II. How to Select a Program

Note: Selecting a program is most useful for those individuals that control multiple planning, SLO or program review units in improve.

1. To select the program you wish to edit, click the dropdown menu at the top center of the page (as seen in the photo). Then, select the desired program. Improve will take you to the program’s homepage where you will be able to navigate to its different Annual Updates, Goals and Updates on Goals.
III. How to Enter Annual Update

1. From the Homepage, use the left side navigation to select “Program Review Input”

2. When you click on “Program Review Input” it will drop down 3 options. To input an Annual Update, click the label “Annual Updates” and then select the green (+) sign towards the right of the window. The form will load up.
(This form will follow the annual update word document Sections I-III)
IV. How to Enter a Goal

1. From the Homepage, use the left side navigation to select “Program Review Input”

![Diagram 1: Navigating to Program Review Input]

2. When you click on “Program Review Input” it will drop down 3 options. To input a Goal, click the label “Goals” and then select the green (+) sign towards the right of the window. The form will load up.

![Diagram 2: Selecting Goals]
(This form will be used when setting up new goals)
V. How to Enter Goal Update

1. From the Homepage, use the left side navigation to select “Program Review Input”

2. When you click on “Program Review Input” it will drop down 3 options. To input a Goal Update, click the label “Updates on Program Goal” and then select the arrow next to the Goal being update then the green (+) sign towards the right of the window. The form will load up.
(When you have more than 1 goal you will have a list of all available goals for update)
(Updates also will have needed Evaluation seen at the bottom of this form. Once evaluation is added you can input the results from the evaluation.)
VI. How to Run a Report

1. From the Homepage, use the left side navigation to select “Reports”

2. When you click on “Reports” it will drop down 2 options. To get a general preset report. Click “Standard Reports” and then select the type of report needed. *Suggestion: For Program Review the best designed report is Assessment: Assessment Unit Planning.*
VII. Adding Supporting Files to Document Repository

1. From the Homepage, use the left side navigation to select “Documents”

2. When you click on “Documents” the option of document repository will drop down. Select Document Repository and then click the green plus sign in the right hand corner and upload the documents needed.
